turn around...*

THE WONDERLAB PROJECT

PERMUTATION MOVEMENT FESTIVAL SEPT 13-15

*How curious if I step
sideways and turn
around...*

Come launch The WonderLab Project in our spring festival, Permutation. The WonderLab Project is an interdisciplinary movement laboratory dedicated to the curious investigation of what we are & what it means to be whole. Our discoveries inform our relationship with our environment, our community & ourselves.

In our festival, we present a collection of movement specialists who share our curiosity for investigation.
